

Questions:

- * Should the bar go in the hut or one of the shade structures?
- * How should we lay out the tables?
- * How big is Jim's Shade structure?
- * How giant is Giant Plinko?
- * What else are we missing that's being brought?
- * Do we want to move one of the 10x10 structures back to the private zone to keep and use the kitchen stuff, or can we use Jim's for that?
- * Should the 10'x10' structures be one row across instead of two?
- * How many tents do we have this time?

Notes:

- * The plot isn't square as depicted. We should have extra space in the lower-right corner. Also, we border two tree lines, technically, so we have lots of leeway.
- * Usually, muddy conditions can affect routes to the camp but not the camp itself. Still, you never know...
